

## Projects selected for in-depth dissemination in the framework of project R8.01/98

No	Project Number	Contract Number	Project Name
1	R2.02/95	25195	Reactor pressure vessel integrity assessment.
2	SRR 2/95	25289 & 25291	Development of advanced methods for evaluation of irradiation embrittlement of VVER 1000/320 type RPVs
3	R2.06/96	25890	Surveillance programme for VVER-1000 RPV
4	R6.01/96	25855	Ageing of RPV. Embrittlement analysis at the reactor pressure vessels of the Greifswald VVER-Reactors
5	R2.09/96	26335	LBB applicability review and basis implementation for VVER 1000 model 320 NPP.
6	R2.10/96	26314	Cables ageing monitoring
7	RF/TS/01-C	24137	Licensing related assessment for design & operational safety of VVER (Subtask C on Embrittlement)
8	R1.14/91	22133	Residual lifetime evaluation
9	R2.04/96	25738	Guideline document for residual lifetime assessment of mechanical components except RPV.
10	RF/TS/05	23790	Technical basis for Russia and Western European NDT qualification.
11	R1.10/91	22129	Confinement
12	R2.08/92	23919	Stress Analysis in VVER 1000 Containment
13	R2.06/93	22968	Confinement cable penetrations
14	R2.08/95	24569	Improvement of the fission product retention system during accidents in VVER
15	R1.4/91	22127	Probabilistic Safety Analysis
16	R3.1/91	22128	Probabilistic Safety Analysis
17	R2.01/96	25840	PSA Level 1 on VVER 230 (Novovoronezh 3)
