

Projects selected for in-depth dissemination in the framework of project R8.01/97

No.	Project Number	Contract Number	Project Name
1	R1.1/91	22365	Reactor Vessel Embrittlement
2/3	R1.2/91 + R2.16/93	22135 + 24499	Primary Circuit Integrity - Application of Leak Before Break concept + Leak before break (Extension of TACIS 1.2/91)
4	R1.3/91	22134	Accident Analysis
5	R1.13/91	22142	Safety related equipment qualification under accident conditions
6/7	R3.2/91 + R2.10/93N	22140	Quality assurance programme development
8/9	R3.5/91 + R2.08/93N	22145 + 23605	Maintenance on VVER-1000 + Maintenance on VVER 1000 (extension of TACIS 3.5/91)
10	R3.8/91	22144	Severe accidents and accident management technology
11	R2.05/93C	23363	Non Destructive Examination/In-Service Inspection
12	R2.09/94	23426	Integrity assessment of VVER-1000 RPV including embrittlement aspects
13	R2.13/94	23741	Simulator training programme and documentation for Kalinin NPP simulator
14	R2.30/94	23956	Transient analysis on the basis of improved computer codes for RBMK reactors (Phase 1)
15	R2.31/94	23766	Leak-Before-Break Concept Applicability Evaluation (RBMK Reactors)
